## Website Story Board

---

---

---

### **Step 1**

*Collect the information that you want to include on the Web site. This includes text as well as images.*

### **Step 3**

*Make sure your web strategy is in line with your goals. Ask what do you want to accomplish.*

---

---

---

### **Step 2**

*Sort the information into topics. Topics should start at the broadest and work toward the narrowest.*

### **Step 4**

*Make sure you explore all aspects in regards to overall color, functionality, and design.*
